

This gives the number of web site visits for one month, May 2010 by day

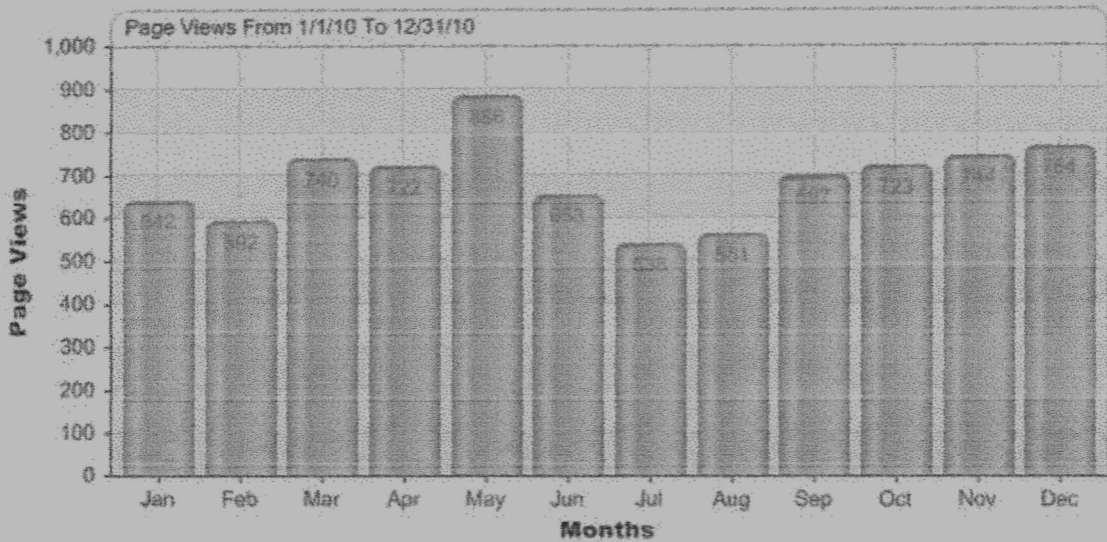

This just shows that we can put a lot more stuff on the web page if we have to.

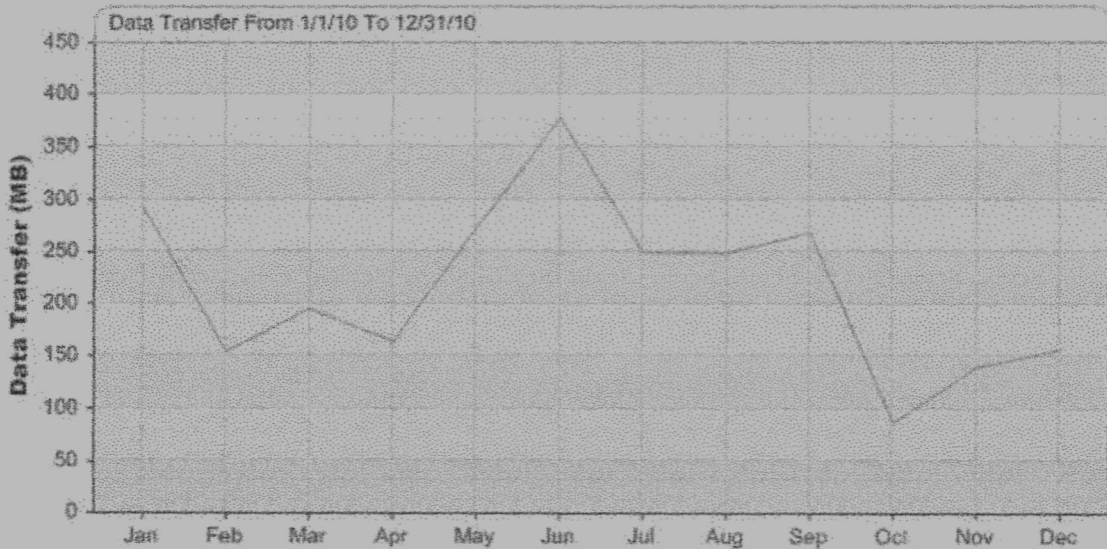

This gives the web site visits by year from 2008 (from June), two full years, and then part of 2011 through the end of February.

This gives the amount of material that was down loaded by visitors each year (part and full).

This gives just one year's worth (2010), month by month for web visits

This gives the downloads from the web site for one year (2010), month by month.
